

Same-day dentistry mill Z4 shown at CDS Midwinter Meeting

vhf and Patterson Dental announce sales partnership

Ammerbuch/Hauppauge, February 21, 2019: vhf is pleased to announce Patterson Dental as new strategic partner for the distribution of their high-end milling machines in the U.S. On the occasion of the 2019 CDS Midwinter Meeting from February 21 to 23, the German milling and grinding machine manufacturer and the prestigious dental supply company will show the Z4, a machine for highest precision and unparalleled ease of use.

Both parties are delighted to announce the new partnership to meet the strong demand for seamless same-day dentistry options. The Z4 is a sophisticated milling and grinding machine that allows restorations to be fabricated from any block material within minutes. Users benefit from previously unattained quality standards, intuitive operation and validation with established scanners and design software.

The CEO of vhf Inc., Dr. Nicolas Rohde, is excited about the cooperation: “Patterson Dental and vhf share the same passion for digital dentistry, and vhf’s Z4 in combination with Patterson’s experienced sales force and their dedication to industry leading after sales support will be a very attractive offering for dental professionals in the U.S.”

Josh Killian, Vice President of Marketing for Patterson Dental continues: “I’m pleased to have vhf join Patterson’s expanded CAD/CAM portfolio of products with their Z4 open milling unit. vhf’s 30 years of dental CAD/CAM machine manufacturing capabilities will provide our customers another path to creating quality same-day in-office restorations.”

Visitors can get to know the Z4 at the CDS Midwinter Meeting at the vhf booth 4918 and at the Patterson booth 2025.
