

vhf supports Feeding America by giving back this Holiday season

The specialist for CNC milling machines supports the charitable work of the food banks.

Hauppauge/Ammerbuch, December 19, 2022: More and more people in the U.S. are living in poverty. Their difficult financial situation is becoming dramatically visible at the food banks. The number of food bank customers has considerably increased since the beginning of the year due to factors like inflation or the pandemic. This means that tens of millions of people affected by poverty are seeking support from the voluntary organization Feeding America. The non-profit organization distributes donated food to people in need.

For many years, vhf camufacture AG has been committed to charitable causes during the Holiday season – under the motto: donations instead of gifts. “It is close to our hearts to support the food banks, this way we can do something against food waste and support people in need who are affected by poverty”, says Ria Brandenberger, member of the board at vhf, about this particularly sustainable form of help, with which valuable resources are not unnecessarily wasted.

About vhf:

vhf camufacture AG was founded in 1988 and develops and supplies innovative milling machines, tools and CAM software for the sectors dental, industry and sign making. The vhf group includes vhf tools AG in Ammerbuch, Germany, and vhf elektronik GmbH in Fürth, Germany. Meanwhile, the vhf group employs about 350 people, most of them at the headquarters in Ammerbuch. In New York and Shanghai, the machine builder has two sales locations.

About the charity organization Feeding America:

Feeding America is the largest hunger-relief organization in the United States. Through a network of more than 200 food banks, 21 statewide food bank associations, and over 60,000 partner agencies, food pantries and meal programs, Feeding America helped provide 6.6 billion meals to tens of millions of people in need last year. Feeding America also supports programs that prevent food waste and improve food security among the people served.
